Dragon Boating Millennium Tour – China (Represented SA) – 2000

Canoeing – Berg River Marathon (Longest river race in the world) – 6 times

Canoeing – Breede River Marathon – 1 time

Oxidane: It is clear from the above that my life was centered on water (sea or fresh).
This is possibly due to my father apparently taking me, while I was still an infant, in his boat with him when he went fishing.

When Maureen Boddy approached me, and asked if I could make a totally unique water treatment product, which could be drawn from highly, polluted rivers and made safe to drink. We discussed exactly what we wanted to achieve, and it was a very challenging mandate.

The product was to be chlorine and ozone free, and would satisfy WHO (World Health Organization) standards... I accepted her challenge.

This product did not happen overnight. Through sheer determination and the belief that I could succeed, I finally developed a product that I was happy with and due to its uniqueness, we now have a Provisional Patent on this product.
